Addendum E REQUIREMENTS FOR QUALIFICATION

1. REQUIREMENTS

The documentation necessary for qualification will be assessed based on the following requirements, observing the provisions of item(s)1.41.5, of this Addendum:

1.1. **Statutory Requirements (Legal Framework)**

1.1.1. Documentation required for domestic companies:

a) Certificate of the State Commercial Registry or Civil Registry of Legal Entities (RCPJ) or Civil Registry of Natural Persons (RCPN);

b) Memorandum of Association according to the Type of Company;

c) Registration in the National Register of Legal Entities (CNPJ).

1.1.2. Documentation required for foreign companies:

a) Proof of being legally convened in the country of origin;

b) Ordinance authorizing the operation issued by the Federal Government;

c) Letter presenting the Legal Representative in Brazil;

See 2.1 of this Addendum E- Requirements for Qualification, for more information on the required supporting documentation.

1.2. **Financial Standing Requirements (Economic Criteria)**

1.2.1. The criteria set forth in the table below must be met. The methodology for calculating the accounting indicators as well as supporting documents are established in Addendum B of this Addendum E - Requirements for Qualification:

a) Net Worth: greater than or equal to 10% of the contract value;

b) Liquidity (LG e LC): greater than or equal to 1;

c) Leverage: less than or equal to 70%;

NOTE: Companies that do not comply with the accounting indicators mentioned above may submit a Parent Company Guarantee (PCG), according to the model available in Addendum C of this Addendum E - Requirements for Qualification, along with the financial statements of the guarantor company, belonging to the same economic group of the guaranteed company, which must meet the accounting indicators, in addition to the submission of documents substantiating the relationship between both companies (guarantor and proponent).

NOTE: The following information should be considered at PCG if the proponent chooses to use it: (i) Contract Object; (ii) Opportunity number; (iii) Beneficiary Representative; (Operation Guide: Full name of the manager who will sign the contract.); (iv) Percentage of late payment fines; (Operation Guide: According to the CONTRACTUAL PENALTIES clause of the contract drafts. If it's not specified, the value of 10% should be used.); (v) Dispute Resolution clause; (Operation Guide: Include the same wording as the contract draft dispute resolution clause.);

1.3. **Technical Qualification**

1.3.1. Items with documentary evidence

Observe in the table below the requirements applicable to each opportunity item whose technical qualification requires documentary evidence.

a) Opportunity Items: 01 - Family: 98011255 - Compressor Centrífugo API 617 - Technical Criteria: Adendo D - critério técnico 98011255

1.3.2. Supply requirements by Resale/Distribution

The proponent who participates in the opportunity as a reseller or distributor must indicate, at the time of filling the proposal in the system, the data of the manufacturer/plant (Country of origin and Country Registration Number or CNPJ), for each item manufactured by the third parties.

If the manufacturer indicated in the proposal is not approved in the technical requirements of the item in his registration, the reseller/distributor must present the manufacturer□s documentation for the purpose of proving compliance with the technical requirements of qualification. If there is no registration of the manufacturer in the Petrobras Registry, detailed data must be filled in to identify the manufacturer/plant (Corporate Name, State, City, Address, Zip Code, e-mail address, Telephone contact).

1.4. The documents required for qualification purposes may be totally or partially replaced by a Certificate of Registration (CRC) valid for the set associated with the items in the bid.

Note: Proof of compliance with the technical qualification requirements of some families is provided by documents with expiration dates, e.g.: certificates, operating licenses, authorizations from control bodies, etc. These documents, regardless of the Proponents' Registration Status in their families, in other words, whether or not they have a CRC, must be re-submitted in all contracting processes, within the Tec-Hab Criterion. For proponents already on the Petrobras' Supplier Registry who have valid documentation available at the family's Annex Library, there is no need to resubmit the documents.

1.5. The proponent who, with no prejudice to the result of the evaluation of the parameters above:

a) Declares itself as a micro or small enterprise and do not prove its qualification;

b) Presents qualification documents with irremediable defects;

c) Is prohibited from taking part in Bidding of similar scope, due to public notice measure provisioned in art. 207 of RLCP.

2. ATTACHMENTS OF THE QUALIFICATION ADDENDUM

2.1. The following attachments are part of this qualification addendum:
