

COLLABORATION ROOM (BUYER)

Access to the collaboration room

The Collaboration Room is the communication channel between the companies eligible for a particular contracting process and the Petrobras representative (Buyer). It is also through the Collaboration Room where the Buyer communicates with others spheres of the Company that come to participate in this particular Procurement Process (Member of Commission, Patec Analyst and Consultant).

The creation of the collaboration room will be performed automatically at the time an opportunity/auction is published, or manually, in advance, recorded. In the latter case, the supplier companies will not be invited to the collaboration room and will not receive notice of the opening of the room at this time (Recorded Status), since the opportunity / auction has not yet been published effectively.

The new collaboration room aims to facilitate the exchange of messages and attachments between users, maintaining specific rules for viewing and editing, and making all the information exchanged in them traceable (Considering always the possibility of read / write access according to profiles specific to the solution and protecting private messages restricted to their senders / recipients). Such actions make the purchasing process more dynamic and allow the buyer user to negotiate better terms and make sure that the products provided by the winning bids will technically meet the needs of the requesting area.

Access to the collaboration room

The access to the collaboration room will be accomplished through the document that originated it (Opportunity/ Auction).

Access the menu "Purchasing and Contract Management" and then access the submenu "Opportunity Board".

Click on the button “New Subject” to create a new topic on the collaboration room.

Subject

Last Update	My Last Answer	Subject	Created by	Attachments	Message
05.02.2025 11:08:30	05.02.2025 11:08:30	TESTE	Petrobras	1	

Creating Messages / Attachments – New Subject

1. Fill in the subject in the "Subject" field (Only if the "Subject Free" field is filled in

2 . Type the desired message in the field indicated;

3. To attach a file, click the "Upload Attachment" button. To delete the selected file, click the button 
NOTE: Deleting a file is only possible before the message is sent. After sending the message, you can not delete attachments or messages from the collaboration room.

The screenshot shows a 'New Subject' dialog box. It has a 'Subject' field with a dropdown menu showing 'Free subject', 'Predefined Subject', and 'Questioning'. Below this is a large text area for the message. To the right of the message area is a table with columns 'Type', 'Members', and 'Recipient(s)'. The table contains two rows: 'Supplier' with 'ENGBOMBAS' and 'Supplier' with 'VINICIUS BEN BEN'. Below the message area is an 'Attachments' section with a 'Load Attachment' button and a table with columns 'File Name' and 'Size (MB)'. The table shows 'No linked attachments'. At the bottom right are 'OK' and 'Cancel' buttons. Annotations with arrows point to the 'Subject' field, the message text area, and the 'Load Attachment' button.

Type	Members	Recipient(s)
Supplier	ENGBOMBAS	St...
Supplier	VINICIUS BEN BEN	St...

File Name	Size (MB)
No linked attachments	

Note:
For Public Bids - If the Purchaser creates the message and ticks the “Send to all available recipients and to public area” flag, the Vendor who enters afterwards will see the message and the attachment (if any). If the Purchaser creates the message without this flag marked, the Supplier who enters afterwards will not see the message and its attachment.
The flag quoted also makes the message and the attachment available in the external area of the Portal.

For Non-Public Opportunities - Messages are sent to the recipients selected by the Buyer at the time of shipment. **The provider included** in the opportunity after sending the message will not have access to previously sent messages.

Note: The buyer will be able to send messages and attachments to all explicit participants in the Collaboration Room (Vendors, PATEC Analyst, Commission Member and Expeditors). Excepting the commission members, who may send messages to suppliers, all the other participants will be able to communicate only with the buyer. The implicit participants (Consultants, Managers, Auditors and Supervisors) will be able only to visualize the messages exchanged in the collaboration room that they have access.

A list of recipients will be available filtering, within the universe of participants of the room, only the participants that the user can communicate directly.

User Responsible for Opportunity: You can send messages to everyone in the room, or select specific recipients. Recipients that should appear to buyers should be the vendor companies that are enrolled in the Opportunity / Collaboration Room and the other explicit participants in the room, such as committee members, Patec analysts, and adjusters. No users, consultants or managers, auditors or supervisors will be displayed in this list.

Note: When the "All registered suppliers" flag is marked in the message by the Room Manager, all suppliers already included in the Opportunity / Room will be obligatorily included as recipients.

Vendor users: They will only have the Responsible for the Opportunity as a possible recipient. Suppliers should not communicate with other participants, nor even find out who else is participating in the opportunity.

Analysts Patec- it will only have the responsibility for the opportunity as recipient.

Comission Member – it will be able to send messages to suppliers, such as buyer;

PATEC Proofers - By procedure, they can only send messages to the person in charge of the room.

Consultants, Managers Profile, Auditors Profile and Supervisors Profile - They will not be able to send messages in the room to any user, they will only be able to see the messages exchanged in the collaboration room that has access.

Prequalification Consultant – They will be allowed to create new subjects and include attachments in the collaboration room that have access that pertain to Prequalification.

I. Collaboration Room

AI Summary - Collaboration Room

The content displayed on this screen is an automated summary of the messages exchanged in the Collaboration Room. This functionality aims to facilitate the understanding of conversations between participants (buyers, suppliers and committee members).

Informes Gerais

A Petrobras orienta os participantes da licitação a consultarem o edital e os comunicados oficiais em caso de dúvidas. Se a dúvida persistir, devem entrar em contato com o canal de atendimento indicado no processo.
